THE Morden Empire, of Sept. 29th, has an account of an address and presentation to C. D. T. Becker, of that place and formerly of Edmonton, on the occasion of his departure to take charge of the new H. B. Co. store being opened at Yorkton.

The affair was a recognition by the citizens and business people of Morden of Mr. Becker's worth as a merchant and a citizen and as an assistant in all good enterprises. The address was highly complimentary to Mr. Becker, and the presentation was a handsome gold watch and chain with the masonic design as a locket. Mr. Becker's many friends in Edmonton join with the people of Morden in wishing him all success in his new field.

THE last issue of the Plaindealer goes out of its way to very unfairly represent the position of Mr. McCauley in his candidature. It intimates that at a meeting in Mill creek district Mr. McCauley said that he had not bothered about polls in the southern part of the district as he did not expect to get many votes there. At the meeting at Foursome school house, in the district affected, Mr. McCauley stated that the selection of polling places was in the hands of the returning officer, and that for polling places south of the river he had consulted with the postmaster in South Edmonton.

Mr. McCauley suggested that the settlers state their case to the returning officer in a petition; and offered to pay the cost of a poll in the settlement if one were granted and there was any question about the expense. Quite a different affair from "not bothering" about it. The Plaindealer should at least be fair in its criticisms and correct in its statements.

COURT.

Deloure vs Fraser and McCormick Harvester Co. vs Frederick argued on Friday and judgment reserved.

McCauley vs Drole was heard on Saturday and judgment reserved.

Smith vs Roughsedge is in progress.

Court adjourns this evening.

MEETING FOR ORGANIZATION.

A meeting of supporters of M. McCauley is requested for Thursday evening at 8 o'clock in Robertson hall, to organize for election day.

NOMINATIONS.

The nomination of candidates for the representation of Edmonton district in the Territorial assembly took place in Robertson Hall on Friday, Oct. 28th. The following candidates were nominated in the order named:

A. C. Rutherford, by J. T. McLaren, M. McIntyre, W. L. Wilkins and W. H. Sheppard. Color blue.

H. H. Robertson, by A. F. DeGagne, W. W. Armstrong, P. Wagner, J. V. E. Carpenter, and H. W. Miller. Color red.

M. McCauley, by Jas. Gibbons, W. McKay, J. R. Boyle and D. J. McNamara. Color black.

The voting takes place on Friday next, Nov. 4th, and the recount on Nov. 10th.

Very few electors were present at the nomination, as it is entirely a formal proceeding.

T. A. PATRICK, M. L. A., for Yorkton, has compiled and issued a pamphlet comparing the standing of the Territories with that of the provinces. Mr. Patrick holds that the Territories are entitled to direct compensation from the Dominion treasury for the exemption from local taxation granted the C. P. R. Also that the Territories are entitled to compensation for the public lands held and administered by the Dominion for the benefit of the federal treasury. Dr. Patrick makes out a very good case. The facts upon which the argument is based are very clearly and concisely set forth, and so arranged as to form a strong argument.

NEW ADVERTISEMENTS.

ESTRAY. \$5.00 Reward

One bay mare, weight about 1000 pounds, white spot on forehead, branded diamond C on left side and V with perpendicular bar on right shoulder. Above reward will be paid for its return to R. L. PHILLIPS, Agricola.

BULLETIN CO. (LTD.)

EDMONTON BULLETIN, OCT. 31st, 1898.

ONE DOLLAR A YEAR.

On and after this date the subscription price of the BULLETIN will be \$1.00 a year. This action is taken in pursuance of the well known rule that an increase of business makes possible a decrease in the margin of profit. The BULLETIN has never professed to be a "cheap" paper. Its publishers always held that the public were willing to pay the value of a good article, and the result in the case of this paper has justified the belief. Commencing as a very small weekly at \$4.00 a year, the BULLETIN has directed its efforts to increasing the value of the paper rather than decreasing its price. In this way it has grown from letter size weekly to its present very respectable proportions, coming out twice a week. At the same time, as soon as it was an increase in the field to be served made possible a reduction in the price, the price has been reduced, so that now the BULLETIN issued twice a week, all printed in Edmonton, bringing the local and the telegraphic news up to date, is offered at the same price as the purely weekly papers of the Territories, the greater part of the reading matter in many of which is printed elsewhere. And this although under the new postal regulations the BULLETIN, because it is semi-weekly, will have to pay postage, while the weekly papers are relieved from that burden within a 20 mile radius of their offices of publication. To the question as to how the BULLETIN can afford to do this, the answer is that on this occasion, as on many others, it is leading, not following, the development of the district. It is expected that the material progress to be made during the next year or two will place the BULLETIN in as good a position financially at one dollar a year as it now is at two dollars. In the meantime no effort will be spared to improve the usefulness of the paper in every way possible. In the meantime also the business community will have the advantage of the increased circulation which the reduction in price will certainly bring. The prestige of a place depends very largely on the prestige of its principal newspaper. The BULLETIN hopes that its effort to increase its range of influence will be appreciated by the business public.

A word in this connection, in conclusion, to subscribers. With the reduction in the price to the present low figure and the fact that postage has to be paid on all copies sent out, it will be absolutely necessary to keep our subscription lists on the strictly cash in advance basis. The margin of profit will not allow of the expense of reminders to renew at 3c each, nor of taking any chances whatever on supplying papers and paying postage without having the cash in hand. This being the case the BULLETIN will be compelled to handle its business just as the great city papers do. That is: No cash no paper, and the paper stops as soon as the time runs out. Subscribers will therefore understand that no offence is meant if their paper ceases to reach them, and that the failure is no reflection on their willingness to pay. The fact simply is that having cut down the price to the usual figure we have to adopt the usual means of reducing cost, and one of these means is the strict adoption of the cash in advance principle.

Parties who have renewed their yearly subscriptions in advance since May 1st will have six months added to their term of subscription.

FORT NELSON.

A gentleman called on the BULLETIN on Friday morning to contradict the statements appearing in the letters of Capt. Mason regarding the trail from Peace River Crossing to Fort Nelson, appearing in Thursday's issue of the BULLETIN. He stated that he was at Fort Nelson at the time the Mason party were there, and that Mason then expressed himself as very much dissatisfied with the trail. The united parties numbered about 50 men. They had lost a few horses, but the band of cattle had come through in good shape so far. The intention of the party then was to continue westward across the mountains to Sylvester's landing by a route used by the Indians. They had engaged an Indian guide who was acquainted with the trails; but he and others warned them that they could not get through with their stock for lack of feed. Grass was plentiful all the way from Peace River Crossing to Fort Nelson, but travelling was very difficult owing to fallen timber, and the growth of scrub pine. The muskies were not much trouble as the country seemed to have dried up considerably of late years. The party killed considerable game on the way.

Our informant returned from Fort Nelson by way of St. John, and having travelled by pack train from St. John to the Big Sicanie river, or west branch of the Nelson, in 19 days. The party had an Indian guide. There was no trail part of the way, but the travelling was good. The country was lightly wooded, with an excellent growth of grass, no muskeg, or fallen timber and no bad hills. He considers this a most interesting region and very suitable for stock raising or dairying.

After reaching the Big Sicanie river the party built a boat and went down stream. They found the river very treacherous, and lost most of their supplies by the upsetting of their boat from striking a submerged tree. They reached Nelson, however, and there met the Mason party. Our informant returned to Peace River Crossing with a member of the Curran party, and the others went on with the Mason party.

FROM SIMPSON.

F. Groat arrived on Thursday night from Fort Simpson, Mackenzie river. He left Simpson about the middle of September and returned most of the way by canoe. He had heard no news from Peel river later than that brought by Messrs. Stephen and Howe, who came up on the Hudson's Bay steamer. Several parties were wintering at the mouth of Gravel river on the Mackenzie, 250 miles below Simpson, their intention being to cross over to the head of the Macmillan river during the winter, the Indians having reported a practicable winter trail. They were putting up a supply of fish at Fort Norman, not far below the mouth of Gravel river, so as to be sure of having food for their dogs when making the trip. The Wilson party, the Findlay party and others were taking this course. A large number of parties had gone up the Liard from Simpson, and none had come down up to the time Mr. Groat left, except a party of three named Tremblay, Coulter and Foster, who had lost their supplies by the upsetting of their boat.

The little steamers of the mining companies had mostly gone down to Peel river. The large boat of the Alaska Mining Co., was on the stocks at Fort Smith. The Alpha of the same company had returned to Chippewyan, being intended to ply on the waters of the lower Athabasca and the Slave river.

A man was reported to have been drowned at the Little lake, an expansion of the Mackenzie below Fort Providence at the outlet of Great Slave lake, Mr. Groat had not heard the name, nor the circumstances of the drowning.

Mr. Groat had bad weather on the lower Athabasca and travelled overland from McMurray to Grand Rapids.

MUD.

Edmonton district has been suffering from mud, (spelled large) during the past week or two. A fall of snow succeeded by thawing weather and some rain brought about a condition most unpleasant to those who had business on the roads. While the wet weather caused some delay in threshing, it was only a slight delay and no damage is reported. The large number of threshers in the district this season makes it possible to get the crop into the granary much more speedily than ever before. While all must agree that the weather has been anything but pleasant and that the roads are horrible, it may be also well to remember that dry—not wet—weather is the enemy of agriculture in the Northwest. The great drawback to grain raising in the west is the dry spring, particularly if the dry spring is preceded by a dry fall, as it usually is. If, however, the ground gets a good soaking in the fall, as at present, the ill effect of the dryness of the following spring is lessened correspondingly. The water now in the ground will freeze there and remain all winter, to furnish a supply of moisture in the spring, and so ensuring an early start of the crop. When no moisture comes in the fall, and the ground freezes dry, in the spring after the snow goes away the ground is as dry as in the fall, for the snow having gone before the frost comes out of the ground the ground could not absorb any moisture from the snow. In that case the crop must wait for the first rains in the latter end of May before it can start. It is a good thing to remember that mud makes wheat.

SELLING RAILWAY TICKETS.

Free Press.

Most people are unaware that it is a criminal offence to buy or sell a railway ticket outside of the regular agents of the company. But such is the fact and the statutes of Canada provide that the punishment for this crime is a fine up to \$50, or imprisonment. The Canadian Pacific railway have been patient for some time, but the evil of selling the return part of a cheap ticket has become so pronounced that the company has determined to put a stop to the practice, and hereafter will press for the imprisonment of a culprit as well as a fine. In several cases in which passengers were detected travelling east on tickets purchased from those who had come up from the east on the cheap rates, the officials have been lenient, and only insisted upon them paying full fare or leaving the train and giving up their tickets. This was done principally because the passengers appeared to be ignorant of the law; but in future more vigorous measures will be enforced to prevent the continuance of the custom. Yesterday morning A. O. Hitchcock, appeared before Magistrate Peebles, charged with selling a return part of a cheap ticket for \$18. The man to whom he sold the ticket was taken off the train here and Hitchcock was made to refund the money and pay a fine of \$30 and costs or 60 days in jail. A special agent has been employed by the company to detect any one guilty of similar misdemeanors.

"What to do with old books and magazines" is the title of a pamphlet issued recently by the Aberdeen Association. The headquarters of this association is in

Ottawa, with branches in a number of the principal cities of the Dominion. Its purpose is to secure and distribute desirable literature to the pioneers of the north and west. Although books, papers and magazines are very cheap, still there are thousands of people who by reason of their situation, their circumstances or their inclination find it difficult to secure good reading matter. At the same time thousands of other people, chiefly where book stores and news agencies are convenient, throw away after reading vast quantities of the very kind of literature that those first mentioned would most highly prize. The Aberdeen association aims to be a medium whereby the waste of printed matter in the centres of population may be turned to useful purpose in supplying the needs of the people in the sparsely settled regions. The members collect publications in their several cities and then mail them to applicants in outlying districts. The association originated in Winnipeg a number of years ago and was given the name it bears in compliment to the Countess of Aberdeen who interested herself greatly in the work. Applications for literature may be addressed to the secretary of any of the branch associations or to C. F. Whitley, secretary of the central association, Ottawa.

To the Electors OF THE VICTORIA DISTRICT.

GENTLEMEN.—For the past four years I have been your representative in the Legislative Assembly, and now, at the request of a large number of the electors, I once more ask for your support in the coming election. I do not for one moment suppose that I have pleased everybody, but at the same time I would ask that each and every elector will give due consideration to what I have said and done, and have done for the general benefit of the constituency and country at large. In going about I find a continued demand for new roads and bridges, owing to the rapid increase of settlement. I also find that there is a necessity for better water to be sunk by the government where water is scarce. If elected, these matters will receive my earnest attention. I find that there has been discontent all over the constituency about not leaving the expenditure of road and bridge money in the hands of the statute labor districts. This matter is now being remedied, and hereafter I will see that these monies will be expended through the owners of the different townships, and will continue to do so as long as the work is properly done. At an early date I will call meetings and will discuss these and other important matters with the electors.

Yours obediently,
F. FRASER TIMS.

GENTLEMEN.—A number of the electors of the district of Victoria having requested me to offer as a candidate in the election for a representative in the Legislative Assembly of the Territories to be held very soon, I announce my consent to do so and hereby solicit the support of each voter in the constituency. Having lived in the Northwest now for the past sixteen years I consider myself well acquainted with the requirements of the country. I shall endeavor to meet you all publicly as soon as opportunity will permit. Meanwhile I respectfully desire those who favor my candidature to promote it by every legitimate means. If elected to represent you it will be my aim to see that justice is done to every section of the district in accordance with its requirements and to support such legislation as shall be timely and in the best interests of the country as a whole. In conclusion I will only say that if elected to represent you I shall consider I have been greatly honored, and I hope under the divine guidance I shall ever seek that I shall prove myself in every way worthy of the trust committed to you by your hands.

SOUTH EDMONTON MEETING.

An election meeting called by Mr. McCauley, was held in Ross' hall, South Edmonton, on Saturday evening last. Robert McKernan acted as chairman. There was a good attendance, over 100 electors being present. Addresses were made by Messrs. McCauley and Rutherford.

Mr. McCauley, in opening, spoke of the Territorial government and the work undertaken by it, and dealt briefly thoroughbred stock, experimental stations, schools, and statute labor districts, also reading a statement of the expenditures of the government last year. He showed how the appropriations in the Edmonton district had been expended on settlements according to the quantity of grain exported by those settlements. He had been criticized for one or two things, his boiler speech for one. He had gained his point on this and that was all anyone could do. Mr. Rutherford had accused him of not looking after the interests of Edmonton in regard to the visit of the press association. He had looked after the matter and the town had a cheque to defray its expenses in this matter. He thought that, taking it all in all, his opponents had not been able to find very many or very serious faults with his public conduct. Mr. Rutherford had met him on a public platform only twice, notwithstanding that he had called fifteen meetings and had invited Mr. Rutherford to every one.

He denounced the allegation of the Plaindealer that he had asked the government to divide the district between townships 51 and 52 as a lie.

In conclusion he thanked them for their kindly hearing, and stated that if elected he would endeavor to carry out to completion the good work which had been commenced.

Mr. Rutherford, in addressing the meeting, claimed that the district had not received its fair share of government grants. If an equal division was made of the total grant, among the 29 constituencies, it would be found that Edmonton was short \$4,000. Mr. McCauley claimed credit for the money spent on the 14th line line; it should be credited to Mr. McCauley, whose constituency it bordered. Also Mr. Tims should have credit, for the same reason, for the money spent on the Beaver lake trail. The speaker thought party politics should be kept out, as if there was a liberal federal government and a conservative Territorial government, the federal grant might be withheld. He reviewed the Territorial government's work, the greater part of which he endorsed. Mr. McCauley had not fulfilled his promises to have a road opened through the Indian reserve at Stony Plain. He thought the Dominion government grants should be larger; instead of \$250,000 we should have at least \$400,000. He favored the formation of the Territories into one province.

Mr. McCauley in replying called attention to the fact that the \$12,000 spent on the Beaver lake trail was not included in Mr. Rutherford's estimate. This would, according to his own statement leave the district over paid \$8,000. As to the road through Stony Plain, the title was in the hands of the federal government and they had only now received permission to open a trail through the reserve. Twenty-six hundred had been spent in improvements south of the river. He called attention to the Plaindealer's garbled report of the meeting in Edmonton, but could not assume any responsibility for the editor's lack of veracity. Three questions were asked Mr. McCauley and satisfactorily replied to by him, after which the audience dispersed.

The meeting throughout was free from disturbance or ill feeling of any kind. An attentive hearing was given both speakers and the applause was so well divided that it was hard to tell which candidate was the favorite, even with a South Edmonton audience.

On account of recent changes made in the electoral district of Victoria and wishing to make it my best endeavor to meet all residents of said district, I shall be obliged to cancel all meetings called by me at Agriola, Partridge Hills, Josephberg and Fort Saskatchewan so as to enable me to visit the new limits.

Trusting that on Nov. 8th you will use your influence and vote on my behalf.

Yours sincerely,
J. W. SHERA.

DROWNED.

A letter dated Chipewyan, Sept 8th, contains the information that a Mr. Wills, a member of a party which left Edmonton about August 20th, was drowned before reaching Chipewyan. The boat ran aground. He jumped to push it off and was sucked under and lost. The letter did not state the locality of the accident. The late address of the deceased is given as 543, west 62nd St., Station O. Englewood, Chicago. The remainder of the party were at Fort Smith when they handed the letter to Forbes Groat, who brought it to Edmonton. The letter was signed by John Hepworth, who states that he was being given a lift down the river by the party.
